

SOCIAL MEDIA POLICY AND GUIDELINES

It is the primary goal of Vista Palomar Riders to provide information & news to our club members through our website and Facebook. The Social Media Committee will make every effort to keep this information updated in a timely manner.

All official club information submitted for the public viewing must go through the Compliance Committee. This is a final check on anything going public, for content and for the best interest of the club. All press releases for all media (flyers, entry forms, etc.) and any advertising for the club must be approved before it can be published on social media, emailed or distributed to VPR members.

Anyone working on a Social Media Site, must be a member of the social Media Committee. All passwords & user names must be emailed to the Board President when Accounts are setup or user names or passwords are changed.

VPR does not allow live feeds of Board Meetings, Special Meetings or Potlucks. Live feeds of events need Board approval before the event and, if granted, members and guests must be notified of the Live Feed prior to it occurring.

Webmaster Credits may only be posted at the end of pages in small print (Power by-Webmaster or Web Design by XXXXXX)
